Dog Agility Levels Compared

A rough guide by Dog Title Tracker, not an official match. The new organization's rulebook decides where your dog starts.

HAPPY DOG LEAGUE

Stage	AKC	UKI	USDAA	CPE	NADAC	ASCA	UKC
First level	Novice	Beginners	Intro or Starters	Levels 1 to 3	Novice (Intro before it, if you like)	Novice*	Beginner*
Second level	Open	Beginners	Starters	Levels 1 to 3	Open	Open*	Intermediate*
Third level	Excellent	Novice	Advanced	Level 5	Elite	Elite*	no match (see below)
Top level	Master	Senior	Masters	Level C	Elite	Elite*	Excellent*

- AKC, UKI, USDAA and CPE are placed by UKI's own transfer table, which says where a dog from those organizations starts in UKI. NADAC is placed by NADAC's own examples for AKC titles.
- * ASCA and UKC have published no rule like that, so their levels sit by position in their own ladders.
- UKI has one more level, Champion. Its table places dogs there that hold a MACH or an ADCH.
- UKC has no level to match the third row: experienced UKC dogs keep running Beginner B and Intermediate B for championship points.

Running in more than one organization?

Dog Title Tracker keeps each organization's titles and progress apart in one account, for AKC, UKI, USDAA, CPE, NADAC, ASCA and UKC agility.

3 months free. Full access included. Then $5/month.

Independent, not affiliated with any of these organizations. Their records are the official ones.
